

Do ads l620 speakers have steel veneer housing

On my last thrift before the lockdown I got these ADS l620 speakers for \$50. One had a bad tweeter and the vinyl veneer was crap. I have always wanted to do an econowave style mod. I ...

ADS L620's are exceptional speakers and some of the best 2 way "bookshelf" speakers that were available at any price from any manufacturer during the late 1970's - early ...

The L620 was the largest in this series using ADS's signature "sticky" 1-inch dome tweeter and a large 10" Stiflite pressed paper cone woofer in an acoustic suspension enclosure. With a ...

ADS L630s. These seem to sell well. and they sound great. I've only seen or heard of, if I recall correctly, 4 or 5 pair, including these. similar to the L730 in both driver ...

Save Big on new & used Home Audio Speaker Mounts & Stands from top brands like Bose, Jbl, Sanus & more. Shop our extensive selection of products and best online deals. Free Shipping ...

HAPPY TO CONSIDER REASONABLE OFFERSFor sale:(1) pair of third generation ADS L620 III 2-Way, Audiophile Loudspeaker System (walnut veneer o real wood veneer)(1) pair of ...

I'll have to check and see if I can strip the black paint off the oak veneer - I do tend to prefer a more natural wood finish to blackout wood - but thats WAY down the road of priorities.

The L620 combines ADS mid and high end clarity and uncolored natural reproduction with solid low end response thanks to the large cabinet. See the full factory specs in the ...

LOL! The Polk's bass should be better, the ADS will have better clarity. You need a bigger set of ADS's to match the Polk's bass. They say the Polk monitor 10 is a good rock ...

ADS L810 Speakers use a pair of 8-in Woofers....so they are likely to be much better than the typical 6-in or less size used in Modern Speakers. I wouldn't put too much ...

Worst thing is some dis-coloration on some parts of the veneer, but the corners are good, not busted up like some vintage speakers so a restoration should be easy if you wish to do so. ...

(1) pair of third generation ADS L620 III 2-Way, Audiophile Loudspeaker System (walnut veneer o real wood veneer) (1) pair of powder-coated steel speaker stands (black)
