Solid Wood Plywood Medium-Density Fiberboard High-Density Fiberboard Particle Board Laminate Melamine Thermofoil Polyester Wood Veneer Thermofoil is a type of vinyl used to conceal MDF or HDF cabinet doors and drawer fronts. This type of cabinet material comes in virtually every color, finish, and style, so you'll be able to find a set of affordable cabinets that match your design perfectly. In addition to their seamless look and feel, thermofoil cabinets are known for their super... See more on kitchen cabinet kings Heavy Duty PR MDF Cabinets: Affordable, Stylish, and Surprisingly Durable Because MDF has no wood grain, it takes paint beautifully, no knots, swirls, or variations to sand down or cover up. This makes it ideal for modern, smooth, or painted cabinet styles.

Our cabinets are constructed with top quality materials like HDF, MDF, hardwood, and plywood. We also build cabinets with excellent craftsmanship like dovetail joinery and ...
